 [Linkedin - Profile](#)

 Berlin, Germany

SKILLS

Core

Python · SQL · Docker

Git · CI/CD · REST APIs

Data & BI

Metabase · Looker · dbt

A/B Testing · Decision Science ·

Databricks

ML / AI

ML · Deep Learning · LLMs

LangChain · RAG · Agents

MCP / FastMCP · Prompt Eng.

Cloud & Infra

GCP · Cloud Run · FastAPI

Google Ad Manager · HubSpot ·

n8n · SAP FI · AWS · Snowflake

Languages

English — Fluent

German — C1

Arabic — Native

EDUCATION

M.A. European Studies

Sønderborg University, DK

2013 – 2015

B.A. Economics

Damascus University

2008 – 2012

Data Science Bootcamp

Le Wagon Berlin

2021

CERTIFICATIONS

Anthropic Academy

Claude Code in Action

Introduction to MCP

Building with Claude API

Introduction to Agent Skills

AWS Certified Solutions

Architect -Associate - in prog.

Data Scientist with 5+ years of experience across data science, business intelligence, solution architecture, and applied AI. Strong foundation in ML modelling, statistical analysis, and data pipeline engineering, complemented by hands-on expertise in LLMs, agentic systems, and MCP-based AI products. Track record of translating complex data problems into production solutions and communicating findings to technical and non-technical stakeholders.

EXPERIENCE

Freelance AI Consultant & Corporate Trainer

General Assembly · March 2026 – Present

- Designed and delivered corporate AI workshops for audiences of 75+ including C-Suite and non-technical leaders (Delivery Hero via GA)
- Advise clients on AI strategy, agentic system design, and LLM adoption from prototype to production
- Build custom agentic AI solutions end-to-end: MCP servers, RAG pipelines, multi-agent workflows deployed on GCP

Head of Technical Operations

Framen GmbH, Berlin · January 2022 – December 2025

- Led data science and **analytics** function: built **ML/DL** models, data pipelines, and **BI infrastructure** from the ground up
- Designed and deployed **Python** data pipelines on **GCP Cloud Run**; owned **SQL data architecture** and reporting layer
- Architected **REST API integrations** connecting internal systems with external partners, designing the data exchange layer that kept all platforms in sync (Operational, Commercial, Finance)
- Built video and image recognition model/pipeline for automated video creative classification
- Owned BI dashboards and KPIs in **Metabase** and **Looker**; defined the **SQL reporting layer** and ran training sessions (30+) to drive consistent adoption across teams
- Led and mentored the **technical team**; defined engineering standards and processes across operations
- Developed a native **Windows** application for digital signage partners: ran unattended for months, recovered autonomously from network outages, and generated payout reports

Data Science Instructor & Teaching Assistant

Le Wagon Berlin · June 2021 – December 2021

- Delivered hands-on instruction in Python, SQL, ML, and data visualisation to bootcamp cohorts
- Mentored students through projects from data cleaning to model deployment

SELECTED PROJECTS

repo-navigator

Agentic CLI & API that explores GitHub codebases via source code (not README) and generates structured onboarding docs. Deployed on GCP Cloud Run. Stack: Python · Claude API · FastAPI · GCP github.com/AliSalem2/repo-navigator

AudioViz

Full-stack AI music video generator. Image + video generation via fal-ai. GCP Cloud Run backend, Vercel frontend. Stack: Python · FastAPI · GCP · Vercel · fal-ai github.com/AliSalem2/audioviz-neural-frames

morning-briefing

Multi-agent assistant: 3 FastMCP servers (weather, news, calendar), Telegram bot, FastAPI dashboard, cron scheduling. Stack: Python · FastMCP · LiteLLM · FastAPI github.com/AliSalem2/morning-briefing

Conversational Analytics

Ask business questions in plain language, answered by Claude from governed dbt metrics on Snowflake. MCP demo. Stack: Snowflake · dbt · MetricFlow · MCP · Claude github.com/AliSalem2/snow_dbt_seman-tic_llm
